Chairman's Message

Dear Stakeholders,

Sanjeev Bhatia

Managing Director

I am pleased to present to you our company's performance during the FY2018-19, and I am proud to share with you how extraordinary and significant this year has been for your company.

The global growth was moderately impacted due to trade wars, geopolitical uncertainties and some of the nations' push towards deglobalisation. The World Bank expects global growth rates to be around 2.7% and 2.8% for the next couple of years, with sluggishness coming in from Euro Area and some of the emerging markets. However, amidst all these, India remained one of the fastest growing major economies in the world backed by healthy domestic consumption coming from the aspiring and affluent households.

If we were to look into the last decade or so, India's Domestic Consumption has increased 3.5 times to touch Rs 110 trillion. India's massive population with favourable demography and purchasing power provides a huge consumer base, thus providing an ample of room to grow and prosper. The base gets even bigger for your company, as it has decided to stick to growing in Tier-II cities, where the growth rates in luxury spending outpaces the Tier-I cities.

Your company's transformational diversification in product portfolio, is taking shape and has already shown signs to yield results in the coming years. The performance for this year, was above par, as your company achieved greater Operational efficiency due to the implementation of technology-driven inventory control system in all the stores. We do not intend to grow at an erroneous rate, by opening stores after stores, and meeting the capital requirements for the same through debt but we rather aim to keep the Balance Sheet in-check and place stores that gives us a locational advantage and reach a wider section of people. This helps us break-even timely and thus giving the desired time to strategize the future road map.

During the year under view, we expanded our Product Portfolio and added Electronic Home Appliances in our basket. Currently, we have 3 major outlets from where the Sales of these appliances are being made, which we expect to increase in the future as your company seeks to benefit from the brand value it created over the years. This decision which was long thought off, has added another feather in our cap and we believe it to provide us a leap forward in the revenues and profits. It has already started to contribute to the top-line and is expected to become a noteworthy portion of your Company's Sales in the coming years. Your company has been able to deliver a resilient performance on the existing lines of business, as we now moved one notch forward to our goal of having a dominant position in South-Gujarat Retail Market. The reasons behind the same, was your company's association with Top Mobile and Mobile Accessories Brands, and Banking Channel Partners which has contributed nearly to one-fourth of the Total Sales for your company.

We believe in creating value by taking constant efforts towards building capabilities and developing our competitive edge over peers with the help of bringing in diversity and transparency in doing business and would continue to do so in order to become a stronger entity than we were yesterday.

On behalf of the Board, I thank the entire team at Bhatia Communications & Retail (India) Limited for showing their faith by giving constant support and encouragement. I also take the pleasure to thank the employees for their tireless efforts towards achieving our goals. The journey began years back, towards becoming one of the most trusted retailers in the Electronic Equipment business segment and as every year pass by, we move an inch closer to our goal.

Best regards,

Sd/-

SANJEEV HARBANSLAL BHATIA

(Chairman)

INDUSTRY STRUCTURE AND DEVELOPMENTS

Global Economic Scenario

The Financial Year 2018-19 was characterised by fears of sharp slowing down of global economic growth due to an increasing degree of deglobalisation. The deceleration happened due to a combination of tariff wars, quantitative barriers impeding the free movement of people, products and services, and geo-political protectionism, such as Brexit, and its associated impact. However, a pickup is expected in the financial year FY2020 with growth rate expected to touch 3.5%.

Indian Economic Scenario

India's economy growth rate was revised in Fiscal 2018-19 from 7.2% to 7% by the Central Statistics Office. While the first half witnessed strong growth trends, growth in the second half was impacted by a liquidity crisis in the Banking and Finance sector as well as global macro-economic events. Even as growth moderated, India remained the fastest growing large economy in the world. Moreover, the Indian Economy growth is expected to remain stable, for the next two financial years, when compared to global growth other emerging economies growth trends.

Industry Outlook and Trends

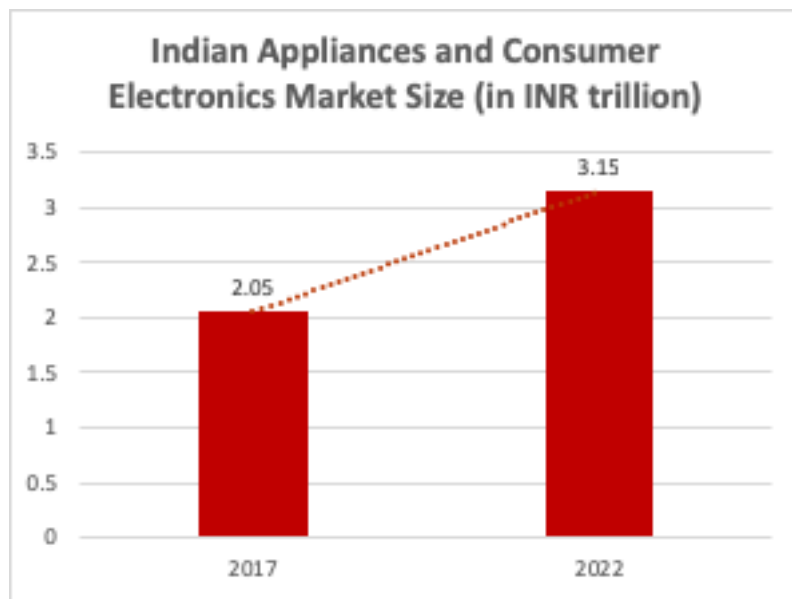

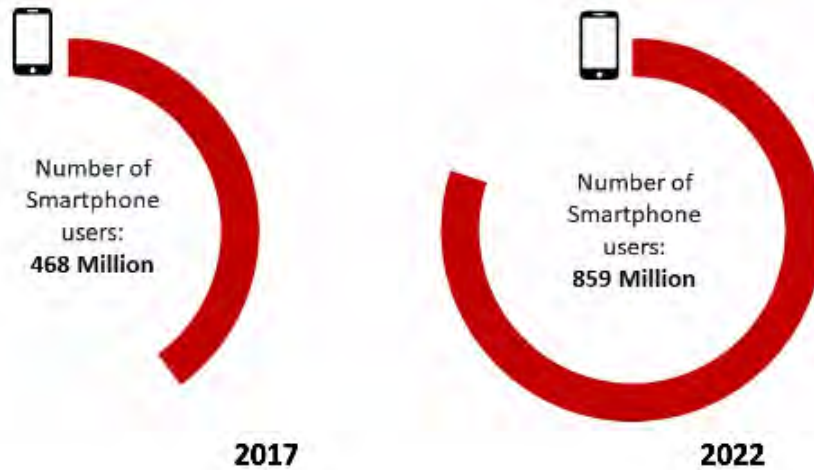

The Indian Retail industry has emerged as one of the most dynamic and fast-paced industries. This can be further justified with the level of consumption expenditure in India, which touched USD 1,824 billion in 2017 and is expected to reach nearly USD 3,600 billion in 2020. The sector accounts for over 10% of the country's GDP making India fifth- largest global destination in the retail space.

The demand for consumer appliances in India has been growing, along with rising incomes, increasing urbanisation, the growing middle-class and changing lifestyles. Increasing disposable incomes coupled with easy financing schemes have led to shortened product replacement cycles. The growing economy and the evolving lifestyles of Indian consumers are leading to a rise in the number of working couples and nuclear families. Consequently, these evolving households have an increasing need for convenience and are looking for products that offer convenience and significantly reduce the time and effort spent on household chores.

India overtook the United States to become the world's second-largest smartphone market, after China. Demand for new smart phones is surging in India, helped in part by 4G feature-phones, free voice services and cheap data plans. It is expected that there would be 859 million smartphone users in 2022, compared with 468 million in 2017. Moreover, Smartphones makers are building factories in the country thus encouraging the "Make in India" initiative.

Indian Appliance and Consumer Electronics (ACE) market reached Rs 2.05 trillion (US\$ 31.48 billion) in 2017. It is expected to increase at a 9 per cent CAGR to reach Rs 3.15 trillion (US\$ 48.37 billion) in 2022.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE

Your company in the Financial Year expanded its Product Portfolio and included Electronic Appliances such as Television, Refrigerator, Air Conditioners, Air Coolers, Washing Machines and Microwaves, with its prime business still being retail and wholesale distribution of mobile handsets, tablets, data-cards and mobile accessories. Moreover, our company has been successful to sell HOM Smart TV through 10 different outlets in the financial year 2018-19. Your company continued to grow on the backdrop of higher Sales of Mobile Phones, Tablets and Accessories with significant contribution to come in from the Sales of Home Appliances from the next year. Diversifying across Product Range gives Your company a healthy headroom to grow and gives an opportunity to register robust growth rates in the future.

OUTLOOK

Your company is engaged in the business of trading Mobile Phones & Accessories, Tablets, LED and Smart TVs and other Electronic equipments. It sells cellular mobile devices and accessories through 76 owned retail stores and 20 franchisee retail stores located all over South Gujarat region. With the sustained efforts to deliver quality service, your company has now been able to touch a conversion rate of 80% and is focussing to constantly improve its retail presence and same store Sales growth which would further improve brand awareness. Going forward, this would increase the turnover, without increasing any fixed costs, thus improving profitability.

This year marks a significant landmark for all the Stakeholders, as Your company increased its product offering by including all kinds of Home Appliances in its product basket, selling through 10 different outlets, with 3 being the major ones. Sale of Smart TVs has already picked up and can be further expected to rise in the next couple of years. Thus, all these efforts of your company's Management with the help of their years of experience shall allow Your company to reach its long-term target of having pan-Gujarat presence within the coming years

RISK AND CONCERNS

- Your business is working capital intensive, so incorrect understanding of the market trends can result into decreased sales. However, Your company has in place technology enabled inventory control system for mitigating any operational risk.
- Company has to remain up-to-date with the latest technology trends in mobile phones, electronic gadgets and other electronic appliances, otherwise it could have an impact on the turnover of Your company.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has in place an adequate system of internal control commensurate with its size and nature of its business. These have been designed to provide reasonable assurance that all assets are safeguarded and protected against loss from unauthorized use or disposition and that all transactions are authorized, recorded and reported correctly and the business operations are conducted as per the described policies and procedures of the Company. The Audit Committee and the Management have reviewed the adequacy of the internal control systems and suitable steps are taken to improve the same.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

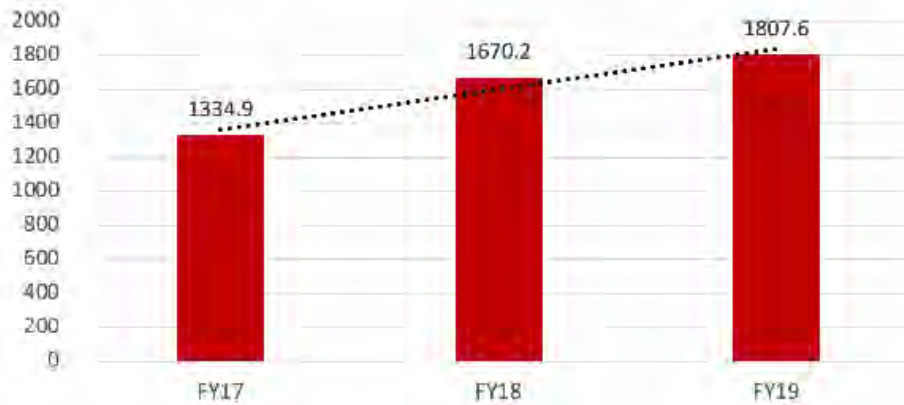

During the year, Your Company continued its investments in fortifying its diversified portfolio and also strengthening its brand value through strong marketing campaigns using different platforms. Your Company is preparing itself for the next phase of growth through value-added products by moving up the value chain. It is taking on new opportunities like venturing into sale of other Electronic Equipments (Home Appliances) and Smart TVs, which can provide both top-line growth opportunity and higher profitability to Your company. The expansion strategies and opening of newer and bigger stores have been devised after doing the entire cost-benefit analysis, so that Your company can mitigate the controllable risk factors.

In FY 2018-19, revenue grew to ₹1807.6million, a growth of 8.23% from FY 2017-2018. EBITDA came in at around ₹ 86million, compared to ₹70million in the previous Financial Year. PAT was ₹51 million for FY19, an improvement o ₹15 million from last year. Your company has managed to give a consistent performance over the past years on the back of a robust business model and a diverse product portfolio.

To conserve resources for Your Company's future growth plans, no dividend is being recommended by the Directors for the year ended 31st March, 2019. However, a stock bonus in the ratio of 1:1 was issued in the Financial Year 2019.

Revenue (in millions)

Your company expects significant contributions to come in from Multi-product outlets, and hence provide a good-mix of revenue source to the topline.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

- Evaluation of Uncertain Tax Positions

The Company has material uncertain tax position including matters under dispute which involve significant judgment to determine the possible outcome of these disputes. The details of the pending litigations have been reported in point 7(b) of CARO report.

- Auditor's Response

We obtained detail of completed tax assessment and demand for the year ended March 31, 2019 from management. We involved our internal expert to challenge the management's underlying assumption in estimating the tax provision and possible outcome of the dispute. We also considered legal precedence and other rulings in evaluating management's position on these uncertain tax positions

- Branches and Franchise

The company has many franchises and branches and the company receives advances/security deposit from its various franchises and the same is adjusted against the amount due from them as on the balance sheet date. The company also receives deposit from branch partner towards security deposit against stock provided to them and same is shown in balance sheet as long term liability

- Auditor's Response

We get the complete list of franchise and branches from the management and check that there is no deviation in the security deposit received and stock provided to them. We also check the agreement made with the branch partner and check whether proper disclosure is made regarding advances received from branch partner and term and conditions of the agreement

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so

The Board of Directors are also responsible for overseeing the company's financial reporting process

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, We exercises professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; to design and perform audit procedures responsive to those risks; and to obtain audit evidence that is sufficient and appropriate to provide a basis for the auditor's opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor's report. However, future events or conditions may cause an entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economics decisions of a reasonably knowledgeable user of the financial statement may be influenced. We consider quantitative materiality and qualitative factor in (i) planning the scope of our audit work and in evaluating the result of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements:

As required by the Companies (Auditor's Report), Order, 2016 (order dated 29.03.2016), issued by the Central Government of India in terms of section 143(11) of the Companies Act, 2013 (hereinafter referred to as 'order'), and on the basis of test check as we considered appropriate and according to information and explanation provided to us, we enclose in the Annexure "A" statement on the matters specified in paragraphs 3 and 4 of the said Order.
