Breast disease

Breast cancer today has become, a dreaded disease and has got deadlier for the modern woman who is becoming vulnerable to the illness. Breast cancer is the second most common cancer in Indian women. The incidence is more in urban than rural women. No doubt, we have seen a considerable change in the level of awareness among women in semi urban and urban areas. The rise is particularly affecting younger women between 30 and 40 years. The fault, to a certain extent, lies with the doctors too who do not encourage screening. Many of us have a misconception that visiting a doctor is required only if we have symptoms that

do not go away. It is important to understand that screening is for healthy women without any symptoms. Every woman after 40 should go for a mammogram test. Fathers, brothers and husbands should speak to their daughters, sisters and wives and make them understand the importance of regular breast and cervical cancer screening. Most girls work, have late marriages and then have children even later. All these factors work at increasing the chances of breast cancer. Stress and obesity are other factors that can increase the chances of having breast cancer. To prevent a disease, we need to spread awareness to mitigate the

risk factors that may lead to breast disease and breast cancer. In India, scientists are incredibly good at improving technology while simultaneously making it cost-effective. Irrespective of one's education, nutritional and socio-economic status, everyone faces a risk of developing cancer. This is called the population risk of developing cancer. A timely initiative with the right degree of gravity for raising awareness about breast cancer among the folks. To be frank, most people do have only a vague idea about breast cancer and the intensity of the malady. Cancer has always been considered a disease of

the aged. Though that is true to a certain extent, the age at which women develop breast cancer has undergone a change in the last two decades. An increasing number of breast cancers are detected in the 25-40 years age group. The mere presence of risk factors is not synonymous with the occurrence of breast cancer nor can all risk factors for breast cancer be mitigated or modified. Women must be familiar with structure of their breasts and do regular examinations. According to doctors, with changing times and a faster lifestyle, younger women are becoming more susceptible to the disease.

Notes :
1 The Above Financial Results have been reviewed by the Audit committee and approved by the Board of Directors of the Company at their respective meetings held on 27.05.2025
2 The above result for the quarter and year ended on 31.03.2025 has been prepared in accordance with the Companies (Indian Accounting Standards) Rules 2015 (Ind AS), prescribed under section 133 of the Companies Act 2013 and other recognized accounting practices and policies to the extent applicable.
3 The financial results for the quarter and year ended 31st March, 2025 have been audited by the statutory auditors of the Company. The Statutory Auditor expressed an unmodified opinion.
4 "During the quarter ended March 31, 2025, the Company received an order from the Goods and Services Tax (GST) Department for the financial year 2017-18, raising a demand of 74.16 crore, comprising 72.08 crore towards disallowance of input tax credit and 2.08 crore towards interest and penalty." The Company has filed an appeal before the Commissioner (Appeals) and, based on internal evaluation and legal advice, believes that it has a strong case on merits and expects a favourable outcome. Accordingly, no provision has been made in the financial results. The said amount has been disclosed as a contingent liability."
5 The above financial results are available on the Company's website www.purohitconstruction.com and also on the website of BSE (www.bseindia.com)

Sohail raped her for a year and a half, the victim's pain

Vadodara, Sohel Pathan, a resident of Ajwa Road in Vadodara city, lured a 17-year-old girl into a love trap and kept her at his house for one and a half years and raped her. Along with this, he forced the girl to convert to Islam. Fed up with Sohel's cruelty and torture, the girl finally filed a rape complaint against Sohel Pathan at the Kapurai police station on May 19, 2025. The victim was 17 years old at the time of the first rape, today (May 23) she is 19 years old, however, since she was a minor at that time, a crime has been registered under the

POCSO Act. In a conversation with Divya Bhaskar, the victim shared her pain and said that if I left the house, he would threaten to break my hands and legs. He would get me drunk, tie me up, beat me and force me to drink alcohol. He would also give me cigarette butts. He would also coerce me. He would also threaten to kill my family. I just want to tell everyone that do not trust this person. I met Sohail while waiting for a rickshaw' Rape victim Namrata (name changed) told Divya Bhaskar that I met Sohail Nazim Khan Pathan

for the first time two years ago near Kamalanagar Lake. At that time, I was 17 years old. At that time, I was standing waiting for a rickshaw, at that time he came with a rickshaw and asked me where I wanted to go? So I said that I wanted to go to Mandvi. After that, I was sitting in the rickshaw and I did not have any spare money, so he told me that you give me your contact number, otherwise you take my contact number, then you give me the money. I will also drop

you at your house. 'After two or three months he started his sexual misconduct' He dropped me off at home and left. I gave him my mobile number. Then one day he suddenly sent me a message. Then I replied to you and we were talking in a friendly manner. We met once or twice and then we got into a love relationship. After that he took me to his house. Initially he treated me very well, but after two or three months he started his sexual misconduct.
